

A cone

by Carolina Illanes, Creative Fusion Visiting Artist, 2013

1. Fold your base card in half. Crease the fold of the base card. Set aside your base card.

2. Cut out your cone. Fold in half down the center line.

3. Fold each of the tabs. Use a paper clip or a pencil to score your dotted line. A ruler can serve as a guide so that your line is straight.

4. Line up the center fold of the cone with the spine of your base card. Use a pencil to mark one side of the cone. This serves as a guide as you glue.

Cone, cont.

5. Apply glue to the tab.
Close the cone and press down.

6. Close the cone so that it looks like a right triangle.

7. Apply the glue to the other tab. Close the card and press down.

8. The cone will be applied evenly.
